# **SHOW DIRECTORY**

[www.figlobal.com/india](http://www.figlobal.com/india)

Dear Attendee,

**Welcome to Mumbai for the 14th edition of Food ingredients India & Health ingredients!**

Over the next three days, we look forward to you discovering breakthrough ingredient solutions and services from 250+ top exhibitors, connecting with 8,000+ local and international industry professionals, and expanding your industry knowledge with our wide range of onsite educational features here at Fi India & Hi 2019.

To really take advantage of your time onsite, we highly recommend you make time in your schedule to visit our networking and educational features. Here are some of our top highlights you can look forward to at this year's show:

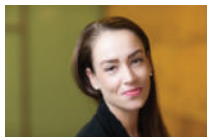

- **Live Demonstrations:** Take part in culinary workshops conducted by Chef Rakhee Vaswani, who will be cooking up a storm using some of our exhibitors' most exciting ingredients.
- **Technical Seminars:** Join seminars led by leading Indian associations, including Health Foods & Dietary Supplements (HADSA) and the Association of Food Scientists & Technologists of India (AFSTI). This year's topics include 'The Increasing Role of Functional Ingredients / Natural Ingredients in Today's Food Manufacturing Industry', and 'FSSAI – New Initiatives to Build a Nationwide Ecosystem for Food Safety'.
- **Discovery Tour:** Participate in Discovery Tours, designed by Nutrmarketing experts and discover how leading companies are responding to industry innovations. This year's themes are 'Healthier Alternatives' and 'Go Natural and Green'. To follow the tour at your own pace, you can simply download the tours via the official Fi India & Hi mobile app.
- **Product Showcase:** Discover a selection of new and innovative ingredients for the food and beverage industry. The top three innovations voted by the visitors will be awarded the 'Visitors' Choice Innovative Ingredients Award'.
- **Hi Pavilion:** The Hi Pavilion connects you with health ingredients suppliers from across the supplements, nutraceuticals, functional food and beverage manufacturing markets responsible for developing healthy, nutritional and wellness products.

Finally, we would like to wish you a successful and enjoyable show at Fi India & Hi 2019 and we hope it serves as a platform to drive your business forward this year. We would like to thank you, our visitors, as well as our exhibitors, suppliers, government departments, supporting organisations and associations for your considerable contribution in making this show a success.

We hope to welcome you once again to another Food ingredients Global show in the near future – please visit our sales stand at Stand K43 to get more information about our upcoming Food ingredients events!

Have a great show!

Sincerely,

Natasha Berrow  
Group Brand Director Fi Global

Olav Masseling  
Brand director Fi India & Hi

P.S. If you are looking for ingredients or suppliers before, during or after the show, be sure to take advantage of Ingredients Network & Supplier Finder, the official sourcing tools for Fi Global events. Visit one of our Supplier Finder desks at the show or go to [www.ingredientsnetwork.com](http://www.ingredientsnetwork.com) to find out more!

# 22-24 OCTOBER, 2019

Hall 1, Bombay Exhibition Centre (BEC),  
Goregaon, Mumbai, India.

## MESSAGE

On behalf of Informa Markets in India, I am delighted to welcome you to the 14th edition of Food Ingredients India and Health Ingredients (Fi India & Hi), the Indian sub-continent's only international B2B exhibition and conference for the food & health ingredients, processing and packaging industry.

The market for food ingredients is witnessing a visible surge in its valuation owing to the growth in urbanization, growth in the Indian gourmet market -- currently valued at US\$ 1.3 billion and growing at a CAGR of 20 % -- and the increasing population density, coupled with the rise in the purchasing power of consumers that has led towards rapid uptake of convenience food. The food sector has emerged as a high-growth and high-profit sector due to its immense potential for value addition, particularly within the food processing industry which accounts for 32 per cent of the country's total food market. The food processing industry is one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected

growth. The objective for the 14th edition of Fi India & Hi is to offer an international showcase of such food processing technology and food ingredients and in turn, help leverage India's wide ranging and large raw material base for food processing industries.

With a rich legacy of 14 years, Fi India in this edition brings in several novel features such as a) Live Master Class with celebrity chef and television show host Rakhee Vaswani on delectable creations that will be based on fusion & molecular, b) Trending Zone - that will highlight the global trends and innovative ingredients in Health & Food Ingredients, c) Self Guided Tour -- a tour that will highlight the Innovation & Discovery in Beverage Ingredients, Alternative Proteins, Traditional Regional Ingredients and Healthy Ageing, d) Technical Seminars by Association of Food Scientist & Technologist (AFSTI Mumbai Chapter) & Health & Dietary Supplements Association ( HADSA ). These will include topics such as 'Product Development: Science and Technology' highlighting the regulatory requirement and principles & importance of testing in new product development and 'Emerging Scenario of Lifestyle, Food & Health Ingredients' highlighting the latest applications of functional foods like Carrageenan & Bilberry extract, respectively and e ) Innovate launches by some brands that will provide the audience a wholesome, sensory experience and newer ideas and tips on food products. The expo has dedicated pavilion for the Health Ingredients category of products along with a China Pavilion and an International Pavilion this year. The expo is marked by International participation from 12 countries such as China, Sri Lanka, Taiwan, Thailand, Canada, USA, Poland, France, Spain, Greece, Russia, The Netherlands and United Kingdom.

This year too, Fi India & Hi is collocated with ProPak India, an expo catering to India's ever growing processing and packaging industries.

We sincerely thank all our partners -- Health Foods & Dietary Supplements Association (HADSA), Association of Food Scientist & Technologist (I) -- (AFSTI), Mumbai Chapter and All India Food Processor Association (AIFPA) for their unstinted support.

I wish all participants at Fi India & Hi 2019, an unparalleled experience and a super-successful show!

**Best wishes,**

**Yogesh Mudras**  
**Managing Director**  
**Informa Markets in India**

## AFSTI MESSAGE

It's a pleasure to partner with Informa Markets in India once again and to facilitate the 2019 edition of Fi India & Hi. The AFSTI – Mumbai Chapter is always committed to support and encourage an event like this – that has a potential to catalyze growth in the food industry.

The food processing industry has been on higher growth curve with companies confidently adopting advanced food science and technology. This has yield better growth opportunities for the industry. We at AFSTI – Mumbai chapter strive hard towards the upliftment of food industry as a whole.

Fi India & Hi is a ideal combination of educative seminars, participation of industry leader in exhibition and a rich mix of attendees across the food industry. We are happy to share that AFSTI is organising the national seminar on “Product Development: Science & Technology” that will highlight the key ingredients for the success of new Product Development. Further we are also organising a “Workshop on Exotic Fruit Wines” that will attract upcoming start-ups in wine industry with a 360o insights in entering the most promising industry.

On behalf of AFSTI–Mumbai Chapter I wish Fi India & Hi exceeds all its objectives and drives Indian food industry to great heights!

**Mr. Nilesh Lele**

## LIVE DEMONSTRATION

### Day 1: 2:00pm-4:00pm

A session full of mouth-watering creations by Chef Rakhee that will make you want more. A fusion of the famous baklava with a bread that alternates with layers of chocolate swirls. Chef Rakhee's signature naked malt cake will surely bring out childhood memories with just a bite and goodness of chocolate.

- Baklava babka
- Malt Cake

### Day 2: 11:00am-1:00pm

This year at FI 2019, Chef Rakhee brings to you some authentic Indian flavours into some of our most common western desserts. A heavenly makeover to your everyday cheesecake awaits you and a classic switch in your traditional Black Forest as it's transformed into a plated dessert with molecular fun.

- Paan cheesecake
- Chocolate and berry forest

### Day 2: 2:00pm-4:00pm

Have you always thought about what to serve for appetisers at your get-togethers? Let Chef Rakhee help you offer your guests an unforgettable experience with highly flavoured authentic fusion food.

- Smoked Beetroot galouti kebab with spicy jalapeno dip
- Andhra chilli chicken satay with peanut chutney foam

### Day 3: 11:00am-1:00pm

Tingle your palate with a twist in your regular sev puri. Indulge in beautifully plated molecular knick knacks that are sure to wow your guests with its presentation as well as taste.

- Edamame sev puri with pico de gallo
- A walk in the forest with mushrooms

# 22-24 OCTOBER, 2019

Hall 1, Bombay Exhibition Centre (BEC),  
Goregaon, Mumbai, India.

## PRODUCT SHOWCASE

### ALLIANCE

#### ENZYMES FOR EXTRACTION

Enzymes are bio-catalysts, which helps in easing the process for extraction. Enzymes are substrate specific so can be used for extracting any oil, pigment, flavor, oleoresin from its natural source with the correct combination of enzymes.

Below are the advantages of using this enzymes.

- ADVANTAGES OF USING ENZYMES
- Enhanced color, flavor, aroma and consistency of the final product.
- Enhance the quality due to milder process conditions.
- Reduced process time in mild condition.
- Improve the extraction process – better press efficiency, improved permeability for solvent or steam.
- Increase in the yield of final product.

**PLEASE VISIT US AT A-28**

### ANKUSH

- Name of the Product: Drinking Yoghurt with Acid or Sweet Whey
- Description: Whey drink produced using innovative potato starches Etenia 457 & Eliane VE580 to obtain new textures like spreadable, spoonable, drinkable.

**PLEASE VISIT US AT A-14**

### Flex Foods

Showcasing exquisite range of berries and fruit centered chocolates from Flex Foods!!.

## PRODUCT SHOWCASE

### Hexagon Nutrition

When you think about Cookies, you always crave for its crispness, flavor, texture and obviously the mouth-watering feeling. 🤤 It satisfies our temptation, hunger pangs and soothe our taste buds.

We know that you are helpless in front of the divine taste, 🤤 but what really bothers us is its Nutritional Value.

What if we mimic the very best version of your cookies and sprinkle on it the magic dust of health benefits, this will curb your cravings and benefit your body too.

We not just fortify cookies, but also various food application displayed in the showcase.

**PLEASE VISIT US AT A-48**

### AARKAY FOOD

#### Fibre Rich Sabudana (Tapioca Pearls)

Deliver High-Fibre appeal

Differentiate your products with higher fibre claims in a variety of applications

Achieve desired eating experience

Unlike other fibres, NOVELOSE 3490™ dietary fibre delivers high fibre content without impacting taste, texture or color

Enjoy ease of formulation

Formulate with a fibre that is easier to incorporate than conventional insoluble fibres

Features:

- Can achieve fibre claims on package:
- ~7g of fiber/100g – rich source of fiber claim
- Fibre fortification of sabudana (staple) boosts overall fibre intake, nutritionally impacts public health
- No impact to taste and texture. Retains same organoleptic properties
- Potentially improves post prandial blood sugar levels (glycemic response), especially during fasting.

## PRODUCT SHOWCASE

### International Flavours & fragrance

**Tea bags are old school. It's the era of tea cubes!**

BeauTea brings you tea cubes made with green tea extract- a powerful antioxidant that protects skin against pollutants, is natural, nourishing and gives an aromatic tea experience. Let go of the mess and the fuss that tea dips bring; BeauTea cubes dissolve instantly and you can have tea anywhere, anytime.

Just add cubes to a glass of water, stir and enjoy!

BeauTea comes in four divine flavours-

- **Butterfly Pea Flower- Blueberry**
- **Turmeric Honey Ginger**
- **Hibiscus Pomegranate**
- **Green Tea Mint**

### Kankor

Dimensions in food and beverage are rapidly changing with consumers wanting to discover complex flavours and textures while addressing key preferences for wellness aspects through unique ingredient solutions.

Kancor Mane's solutions team with exploration of these trends, created a range of in-house customised blends:

1. TastyKan Spiced Pistachio + C-Capture Citrine series (chlorophyll + turmeric)
2. TastyKan Golden Latte + C-Capture Sunlight series (turmeric)
3. TastyKan Orange Smoothie + C-Capture Ochre series (annatto + turmeric)

TastyKan range are multi-spice liquid blends and C-Capture's natural colour solutions give the beverages a flavour rich, vibrant appeal.

**Description** – BioNeutra is a Canadian, multiple-award winning, sector-leading, science-based company committed to improving public health. Its lead product, VitaFiber™ IMO, is a healthy, lower calorie, fiber sweetener and is designed to help with two of the world's growing health problems —weight management and digestive health. VitaFiber™ IMO is the result of a patented process developed over 27 years. Three world-renowned regulators, US FDA-GRAS, Health Canada and EFSA, reviewed all the science claims of VitaFiber™ IMO and approved it for sale in 30 countries. Thanks to its nutritional and functional benefits, VitaFiber™ IMO is used by manufacturers of protein bars, bakery, ice cream, beverages and confectionaries. It's not only a lower calorie sweetener and fiber but also an excellent binder, humectant, and filler without comprising the taste and texture. VitaFiber™ IMO is the only IMO made in North America and it's available in powder and syrup from pea starch. If your NPD project involves reducing sugar, adding fiber, or if you are curious about the VitaFiber IMO advantage come visit our stand - D49

**Website** - [www.dbrkart.com](http://www.dbrkart.com)

**Description** – Dhanwantri Bioremedies Pvt. Ltd. Manufacturer of Stevia based Products and HealthCare Food Supplements. Established in the year 2011 (Formerly known as Victory Herbals Pvt. Ltd.) having the manufacturing unit in MIDC BUTIBORI, Nagpur with own stevia cultivation farm and nursery. Its corporate office at Mumbai. Our mission is to help people providing the most effective herbal treatment based on Ayurveda which is 5,000 year old system of natural healing that has its origins in the Vedic culture of India. Stevicure is our flagship product for diabetes patients with proven results in reducing maintaining the sugar levels normal. Stevifit is the natural sweetener with zero calorie for sugar replacement 100% safe for diabetes patients and health conscious people with no side effects. Diabakit is the complete nutritional kit for diabetes patients with proven results in reducing and maintaining the blood sugar and blood pressure levels. More than a mere system of treating illness Ayurveda is a science of life (Ayur life, Veda science or knowledge). It offers a body a wisdom designed to help people to stay vibrant and healthy while realizing their full human potential. Thousands of years before modern medicine provided scientific evidence for the mind-body connection, the sages of India developed Ayurveda, which continues to be one of the world's most sophisticated and powerful mind-body health systems. We have a number of other herbal products to help address the various health problems. Our India is a diabetic country therefore they could not enjoy sugar. Stevifit is made from stevia which is natural and having zero calorie and zero glycemic index. Therefore it is safe for all human being including diabetic. Our aim is to replace entire sugar by stevia sugar so that people can enjoy health benefit. Hence there is a huge market and having good scope for continuous expansion.

## EXHIBITOR PROFILES

**Description** – The world doesn't need another flavors and fragrances company. It needs a partner that's willing to stand up and fight for a better way, for people and planet. That's why our new purpose is about more than just satisfying the senses. Today, we exist to redefine how we live in and care for the resources of our world, together. Our international team uses artistry, science, and expertise to create unique and unexpected scents, tastes, experiences and nutrition for the products our world craves—from global icons, to boutique innovations. And, along the way, we're redefining what a flavors and fragrances company can stand for by questioning everything, championing creators, and doing more good at every opportunity.

**Address** - Deepa Building, Santo Gopalan Road, Chullickal,, Cochin - 682005, Kerala

**Country** - INDIA

**Tel** – 0484- 2227241

**Fax** - 0484 - 2220801

**Email** – info@meron.com

**Website** - www.meron.com

**Description** – Marine Hydrocolloids is the largest producer and exporter of Agar in India for the last 35 years suitable for Confectionary and Dairy Products Industries, Plant Tissue Culture, Dehydrated Culture Media, Microbiology, Pharmaceutical, Dental Castings etc. The Company's main business is in Agar Agar, apart from culture media ingredients. Agarose, Sodium Alginate, Carrageenan etc. The company has ISO 22000 - 2005, Halal, Kosher, HACCP Certifications and its products are exported to USA, UK, Europe, UAE, Middle-East and Africa. Agar Food Grade/ China Grass/Gulaman Bar Agar has been used for many centuries as a high performance gelling agent. Its ability to produce clear, colourless, odourless and natural gels clear cut without the support of other colloids has long been exploited by the food industry, not only as a stabilizer and gelling agent but also in the manufacture of confectionary, glazing and icing coatings, piping jellies and many other innovative products. Apart from its ability to jellyfy aqueous solutions and produce gels without the support of other agents. Agar Agar can also be used as a safe source of dietary fibre since it is not digestible by the human body. Agar Agar food grade which is commonly known as China Grass or Gulaman Bar is used specially during the Ramazan season while breasting the fast, as this given a very good cooling effect on the body after the day-long fasting. This is used in making ice creams mixes and milk shakes also. Agar is used as a thickening agent in low calorie marmalade, jam, processed meat products, bakery fillings, icings, prepared soups, ice creams, etc. and as a gelation agent in doughnuts, low calorie marmalade, jam, jelly candy, fruit yoghurt, acidified creams, cheese, puddings, custard, flan, gelatin fruit desserts, processed meat product, bakery fillings, icings, whipped fruit pulp, etc.

**Email** – julienlkh@prova.fr; contact@prova.fr

**Website** - www.prova.fr

**Description** – Prova's range of cocoa extracts offer both functional and organoleptic benefits. Our extracts allow a higher concentration than cocoa powder and a better solubility without sedimentation. Easy to use, they help to reduce the dry matter and viscosity. Storage is made easier and the microbiology of products better controlled. Our cocoa extract can preserve the genuine cocoa taste, give a signature, enhance and typify the taste of cocoa powder, while reducing the grainy mouthfeel and masking off some off notes in applications. Our products are available with various certifications, Halal, Kosher, Organic and/or Fairtrade..

**Address** - P O Kathahwada Maize Product, Odhav, , Ahmedabad - 382430, Gujarat

**Country** - INDIA

**Email** – [smm@sayajigroup.in](mailto:smm@sayajigroup.in)

**Description** – Established in 1941, Sayaji Industries Ltd. – the flagship company of the Sayaji Group found its humble beginnings in Ahmedabad as a corn wet milling unit with a modest corn crushing capacity of one ton/day, catering our own textile units and others located in the city. For more than seven decades we've dealt with corn in a variety of ways. Our curiosity to learn more about corn has helped us develop better products, thus making us the front runners of the corn wet mining business with a 750 MTPD maize grinding capacity coupled with a captive power plant of 5MW (thermal and gas based). The Group through its flagship unit Maize Products caters to several industries including textile, food and beverage, paper, paint, pharmaceutical, and confectionery. Sayaji Industries through its subsidiaries and affiliate companies is also involved in hybrid seeds, real estate, packaging solutions, and manufacturing of specialized functional ingredients such as, acacia gum powder and non-gum based products such as tomato powder, fat/oil based powders and cheese powder. The Group has its offices at Ahmedabad, Mumbai, Delhi, Chennai, Kolkata and Dubai (UAE) with a robust network of agents pan India, Africa and the Middle East.

**Description** - We are a Delhi Based company, manufacturing food grade Phosphates and Sulphates since 1981. At our FSSAI approved manufacturing facility in Bawana Industrial Area, Delhi (India), we follow stringent quality systems to manufacture high quality hygienic ingredients to give healthy and safe products to our customers. All our products are free from extraneous chemical and biological elements. From raw material procurement to final packaging, we ensure that quality and efficacy is maintained at all stages of manufacturing. Our products are used in a wide range of applications, primarily as leavening agents in Bakeries Baking Powders, mineral supplements, preservatives for dried fruits, potato chips and concentrated fruit juices, buffering agents, ant-caking agents and many more. Vijay Enterprises was started by Mr Vijay Kumar Jain, an enterprising Chemical Engineer from BITS Pilani, in 1981. Beginning with Mono Acid Calcium Phosphate for a premium Bakery conglomerate, he leveraged his expertise to rapidly add other leavening agents in the portfolio. By 1987, the manufacturing area had been doubled with addition of many new products. In 2014, manufacturing unit was moved
