Health ingredients India

20-21 MAY 2021

NIMHANS CONVENTION CENTER, BENGALURU

SOUTH SUMMIT

Spice up your business with new opportunities from Fi India & Hi

About Fi India & Hi

With a legacy of 15 years, Food Ingredients India & Health ingredients (Fi India & Hi) is the most comprehensive B2B show in the Indian subcontinent for Food & Health ingredient industry.

Theme: New Normal - A Boon To The Food & Beverage Processing Industry

The current pandemic has brought an unprecedented shift in way of life globally; there is significant variance in consumer sentiment and behaviors. This evolution is providing a unique opportunity for forward-looking food and beverage companies who can successfully balance consumer health concerns with affordability.

While the buying & the consumption pattern of the consumers globally has changed. Buyers have become more conscious towards the nutritional values of the food intake which enhances the immunity leading to a healthier life. Whether it is premix in the breakfast foods, balanced diet food with combination of vitamins, proteins, probiotics, minerals, the healthy beverages like turmeric latte or the nutraceuticals which enhances the health benefits. Proactive healthy buying pattern has increased the consumption of ready to eat food, premixes & beverages. The food & beverage industry is headed for a transformation at many levels that aims to elevate the customer experience and set new standards for the industry in the post-COVID era. Also, to enhance their market share in an increasingly competitive business environment.

Fi India & Hi South Summit

After a pandemic-induced pause, it is time to connect, for networking, aiming to facilitate your business and the industry. The key aim of the two-day summit is to put a spotlight on the new dynamics induced by COVID-19 in the food and beverage industry. While the industry continues to face challenges, the pandemic accelerated many changes that were already underway. The summit will put a spotlight on various business and nutritional value aspects of 'New Normal' through presentations, panel discussions, and lively interactions by the galaxy of speakers.

Karnataka a leading food processing hub

The presence of rich climatic and soil condition makes Karnataka a major agricultural belt with national leadership in large numbers of crops and has sufficiently large base to support the industrial processing.

- Karnataka has **65%** of its geographical area under cultivation with a cropping intensity of **122%**
- Pioneer in organic farming and among top **5** producers in more than **30** food categories in India
- Only state in India to have **8** food parks & **2** major cold chain facility.
- Karnataka has about **54000+** Agro processing unit and over **80+** food processing giants in food parks like ITC, Britannia, Nestle, MTR, etc…
- Part of the Bangalore – Mumbai Industrial Corridor (BMIC) and Chennai – Bangalore Industrial Corridor (CBIC)

Karnataka's thriving food industry attracts investments from major multinational companies like AB Mauri, Cargill, Kerry, Nestlé ,ITC..

Why Partner?

Access Key decision - makers and global buyers under one roof

Generate new business leads onsite

Discover future health and ingredients trends

Increase your brand awarenes

Receive high - Profile exposure

Benefit from targeted promotions for bespoke solutions to meet your specific business needs.

Who Can Partner?

- Food & flavours
- Dietary supplements
- Natural ingredients
- Plant extracts
- Additives / Enzymes
- Proteins (Fish, Meat, Poultry, Milk & Plants)
- Colours
- Sweeteners
- Soya products
- Antioxidants
- Herbs spices & seasonings
- Pre-biotics / Pro-biotics
- Starches and Gaur Gums
- Encapsulated ingredients
- Fragrances
- Vitamins & minerals
- Nutraceuticals

Who Can Attend?

- Manufacturers of Food
- Beverage Products
- Research development
- Scientific professionals
- Distributor : Food/Beverage Products
- Retailer: Food/Beverage Products
- Consulting: Manufacturing, Microbiology
- Manufacturer : Ingredient
- Food Safety & Quality Services Experts
- Education/Training experts
